

Step 1. Click the "Reset Forgotten Password" tile on the password.danfoss.net page, or navigate to <https://passwordreset.danfoss.com>

Step 2. If prompted for a password, select the option at the bottom “*Use your face, fingerprint, PIN, or security key instead*”.

Step 3. Sign-in using your pre-configured MFA methods - Windows Face or Fingerprint recognition, a Passkey stored in the Microsoft Authenticator app or a YubiKey (USB Security Key)

Step 4. Once signed-in, click the “*Get temporary password*” button.

Reset your Danfoss account password

Step 1 of 2: Generate a Temporary Password

You are resetting the password for: **judith.carranza@danfoss.com**

In this step, a temporary password will be generated for your account.
You will use it **in the next step to set your own new password**.

Click the button below to generate the temporary password and continue.

Get temporary password

Step 5. Click the *Copy* icon next to the temporary password to copy it.

Step 2 of 2: Create a New Password

A temporary password has been generated for your account.

This page will expire soon. Do not store the temporary password outside this page.

Click the Copy icon below next to the temporary password to copy it.

This will also automatically open in a new tab the **Microsoft Change Password page** where you will set your new password.

When prompted on that page:

1. Paste the temporary password as your current password
2. Enter a new password
3. Confirm the new password

Temporary password: rj+h_EU#85OSG

If the Microsoft page does not open automatically [click here](#).

Please note, after the change is complete, the new password may take some time to sync across systems, you may have to reboot your devices and re-login to certain apps.

Step 6. On the Microsoft Change Password page that opens automatically, paste the copied temporary password, and enter the new one.

The screenshot shows a web page with the Danfoss logo at the top left. Below the logo is the email address 'judith.carranza@danfoss.com'. The main heading is 'Update your password'. Below this is a message: 'You need to update your password because this is the first time you are signing in, or because your password has expired.' There are three input fields: 'Current password', 'New password', and 'Confirm password'. At the bottom right is a blue button labeled 'Sign in'.

Step 7. Verify that the new password works correctly across your devices and applications, including your computer, mobile phone, Outlook, Teams, and other corporate services.
